

EXCLUSIVE

EDITION 02

Welcome

In Thiral, quality meets aesthetics, creating products in accordance with the highest specifications. Thiral's philosophy centers on humans themselves, meeting the needs of their space manufacturing products and providing services which combine inventiveness, innovation and Flexibility.

Having our thirty-year experience in main entrance construction as a compass, we offer the ideal solution to those who pursue the best for their house. Designing with innovation, manufacturing using cutting-edge technological equipment in our privately owned facilities, we produce with loving care, doors of character and personality.

Select the best for yourselves and enjoy life at home!

Passion for Perfection

In a modern world where the demands for the ideal entrance door of topmost standards, with quality as well as high energy requirements constantly on the rise, we created our range of exclusive aluminum doors.

In Thiral you can find the ideal entrance door for all purposes, for every architectural and decorative trend, nonetheless consistent with your desires and the needs of your space. The plethora of designs in Exclusive, Exclusive plus, Classic, can satisfy every whim, augmenting the thermally insulating, sound-proofing, but also functional uses of each door system.

Provide your space with your own dimension and its unique personality, selecting the appropriate door for you and your family.

Quality Supremacy

Thiral selects the topmost energy coverage and high specifications design as well as production materials and processes proposals, creating complete heavy door systems, providing both high aesthetics end products and excellent functionality applications for the all-round coverage of the needs of each space.

The afore mentioned could in no way be accomplished without the use of technology and our people. Making the most of technology and continuously educating our already specialized human resources, we see to it that specifications from the first to the last process in product and services production are perfectly harmonized.

The aesthetic appeal of Exclusive, Plus & Classic designs, the operation of TDS systems as well as the technical Features provided are in perfect harmony. In tandem with the combination of the advantages of Thiral's technological and quality supremacy, they render Exclusive doors the ultimate proposal in the market, upgrading the energy identity of your house at the same time ensuring the value of the space and your protection and security.

EXCLUSIVE PLUS

Exclusive plus design range constitutes the modern expression of aesthetics. Unique designs implementing modern style and artistic features such as the use of glass, concrete, wood and corfen.

EXCLUSIVE

Exclusive design range combines simplicity with the prevailing modern aesthetics, providing absolute harmony between design and modern architecture.

CLASSIC

As if taken from another era it oozes with the design aroma of classic timelessness to blend with the aesthetics of houses which follow the more traditional classic lines.

EXCLUSIVE PLUS

Exclusive Plus offers a complete combination of unique design and excellent Functionality. They are distinguished for their modern design aesthetics, they are characterized by the fascinating embossed textures which they combine, such as the decoration with glass all the way to veneers with real concrete and almost natural wood textures.

The different levels created in the 3d designs, the vertical planks in wood or Ral colours, as well as the kinked hidden handles and grips with LED lighting make it possible to produce an excellent effect, which will lend a unique character to the total image of your abode. The wide variety of exclusive plus designs offer the possibility of selecting the ultimate style for your space.

CLASSIC

As if from another era, Thiral's Classic aluminum panels exude the design aroma of classic timelessness, blending with the aesthetics of houses which follow the more traditional classic lines. Travelling other times Thiral's Classic Frame designs are the result of high aesthetics coupled with inspiration for the creation of excellent compositions with the classic urban spirit taking our mind back to times when house doors were always open.

TDS.092C @ TDS.092CW

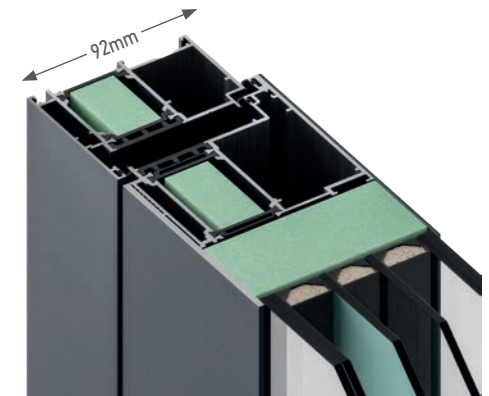

EXCLUSIVE PLUS | EXCLUSIVE | CLASSIC

Master range is regarded as the Flagship systems, consists of TDS.092 system and is available through 092C and 092CW versions, which are differentiated exclusively in the design of the door frame, with the former being distinguished for its minimal aesthetics due to the straight frame (co-level with the sheet) and the latter being ideal for the 3D designs of Exclusive Plus range.

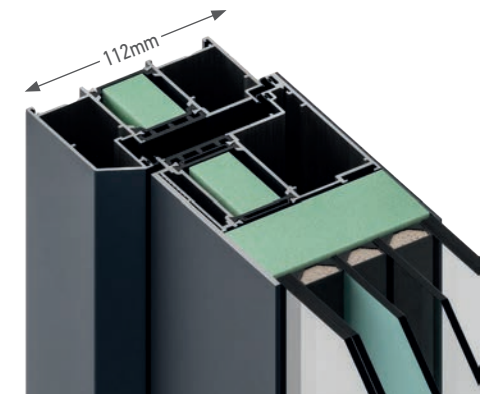

TECHNICAL SPECIFICATIONS

- Maximum Door Size 1100x2300mm
- Maximum Single Door Dimension 1200x2500mm
- Door Sash Depth 92mm
- Total Door Depth 92mm (.092C) / 112mm (.092CW)
- Frame Depth 80mm (.092C) / 100mm (.092CW)
- Aluminium Skin External Face 3mm
- High Performance Insulate Thermal Break 34mm
- Fully Insulated Door Profiles
- Quadruple Glazed Laminated Internal @ External Units
- Three Rubber seals
- Anodized Low Threshold

TDS.092C

TDS.092CW

Supertherm

TDS.080C

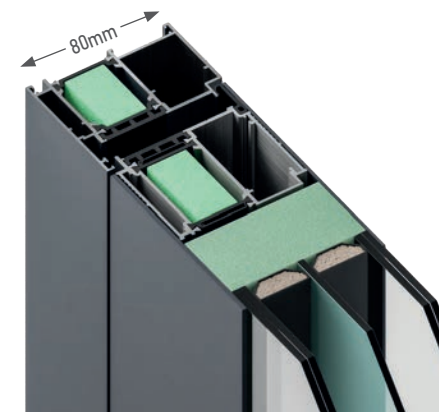

EXCLUSIVE | CLASSIC

Supertherm range constitutes the modern expression of minimal architecture due to the co-levelness both on the in- and the outside between the sheet and the frame. It is available in TDS 080C version and is distinguished for the multitude of typologies available since it can come with opening outside as well as double-sheet constructions.

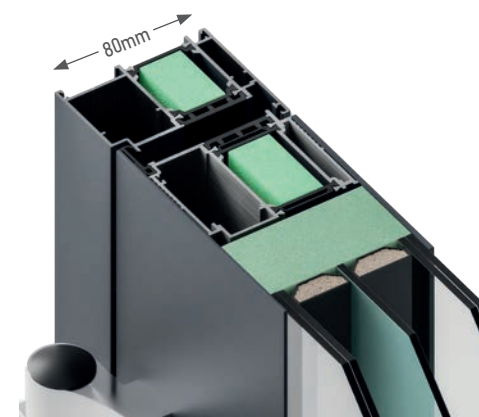

TECHNICAL SPECIFICATIONS

- Maximum Door Size 1100x2300mm
- Maximum Single Door Dimension 1200x2500mm
- Door Sash Depth 80mm
- Total Door Depth 80mm
- Frame Depth 80mm
- Aluminium Skin External Face 3mm
- High Performance Insulate Thermal Break 34mm
- Fully Insulated Door Profiles
- Triple Glazed Laminated Internal & External Units
- Two Rubber seals
- Anodized Low Threshold

Internal Side

Pro

TDS.810C & TDS.810CF

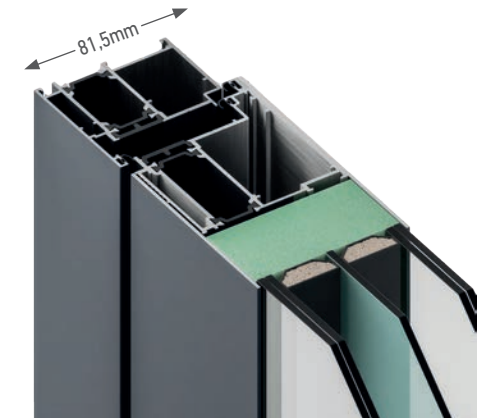

EXCLUSIVE | CLASSIC

Pro range is available with TDS. 810 system in two versions, TDS 810C and TDS.810CF. It is also available with curmudgeonly Frame in 810C and in the most modern 810CF version. The inox element of the designs available in TDS.810 are placed cheek by jowl in contrast to Master and Supertherm ranges in which they are at the same level as the sheet.

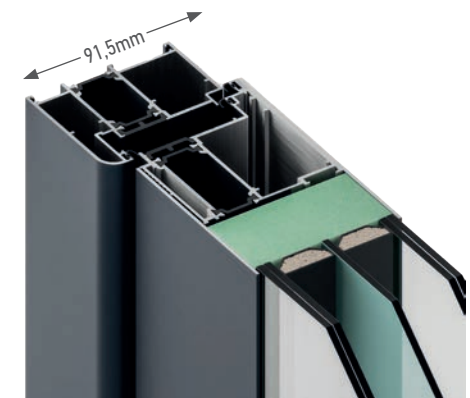

TECHNICAL SPECIFICATIONS

- Maximum Door Size 1100x2300mm
- Maximum Single Door Dimension 1200x2500mm
- Door Sash Depth 81mm
- Total Door Depth 91.5mm (.810C) / 81.5mm (.810CF)
- Frame Depth 80mm (.810C) / 70mm (.810CF)
- Aluminium Skin External Face 2 mm
- Inox Attached to the Panel
- Optional Insulated Door Profiles
- Triple Glazed Laminated Internal & External Units
- Three Rubber seals
- Anodized Low Threshold

Three-Fold Lock with Hooks

* The Master series is offered with a undivided lock strike unlike the Supertherm and Pro series.

** The basic handle in the Classic is the E730-5. The classic handles in Classic are placed according to the final dimension of the door and the dimension of the design remains constant.

*** The inner side of the door is flat without a design. Optionally, a design on the inside is also offered at an additional cost.

**** The design for each Exclusive model is shaped according to the overall construction dimension of each door and there may be slight deviations from the catalog.
